He took the bus every day at 7.30am and didn't get home until 5 o'clock in the evening. What a difficult life!

Phillip's family bought a satellite TV in 1990 and a new video the next year. In 1994, his brother bought a computer and Phillip got a bicycle the same year.

He left his school in 1997 but decided not to go to university like most people: instead, he went walking in France alone for three months and then drove around America for three months with his brother.
